The following questions will help us assess which dogs you may be able to foster safely and successfully. Please answer completely, and feel free to attach additional pages if needed. Safe and Sound Rescue (SaSR) provides food, vaccinations & preventative medications, necessary veterinary care, and a collar with SaSR Identification Tag that must remain on the dog at all times. The foster is expected to provide love, attention, exercise and transportation to adoption events and medical appointments. Fosters are expected to keep their foster dog until its adoption is finalized. In the case of a Foster-to-Adopt (FTA), we may ask the foster to keep that dog's "space" open in case the FTA is not successful. The length of the foster period is always unknown, from a few days or weeks, up to months or even longer. If the foster placement is not working out well for either the dog or the foster home, every effort will be made to find a new placement for the dog as quickly as possible. However, fosters must be willing to keep the foster safe (using barriers, crates, etc.) for whatever time it takes to secure a new foster, usually within a week or two.

- Do you own or rent your home? _____ How long have you lived at this address? _____
- Please describe your home (condo, ranch, split-level, etc): _____

- Do you have a yard/outdoor play area? _____
If yes, is it fully fenced? _____ How high is the fence? _____ Is it securely gated? _____
- If you rent, have you received your landlord's approval to foster temporarily? If yes, please provide your landlord's name and phone number: _____

- Some cities/municipalities have breed restrictions, and most have limits on the number of dogs and/or the total number of pets per household. Sometimes fosters are counted differently toward these totals, sometimes not. Safe and Sound Rescue may check the codes/ordinances of your city/municipality to ensure that fostering dogs will not result in a code violation. Please initial here that you agree to this verification. _____
